

Manage mobility and preserve resources.

Using smart mobility solutions to choose how and when vehicles move with conditional and relative priority can minimize impacts to other traffic on your streets.

START YOUR INNOVATION JOURNEY

GET FROM WHERE YOU ARE TO WHERE YOU WANT TO BE

NONE

No V2X communication, dependent on driver and fixed signal timing

POINT-TO-POINT

Legacy point-to-point communications, including optical and sound

SEMI-INTEGRATED

Modern point-to-point communications with GPS locating and remote management

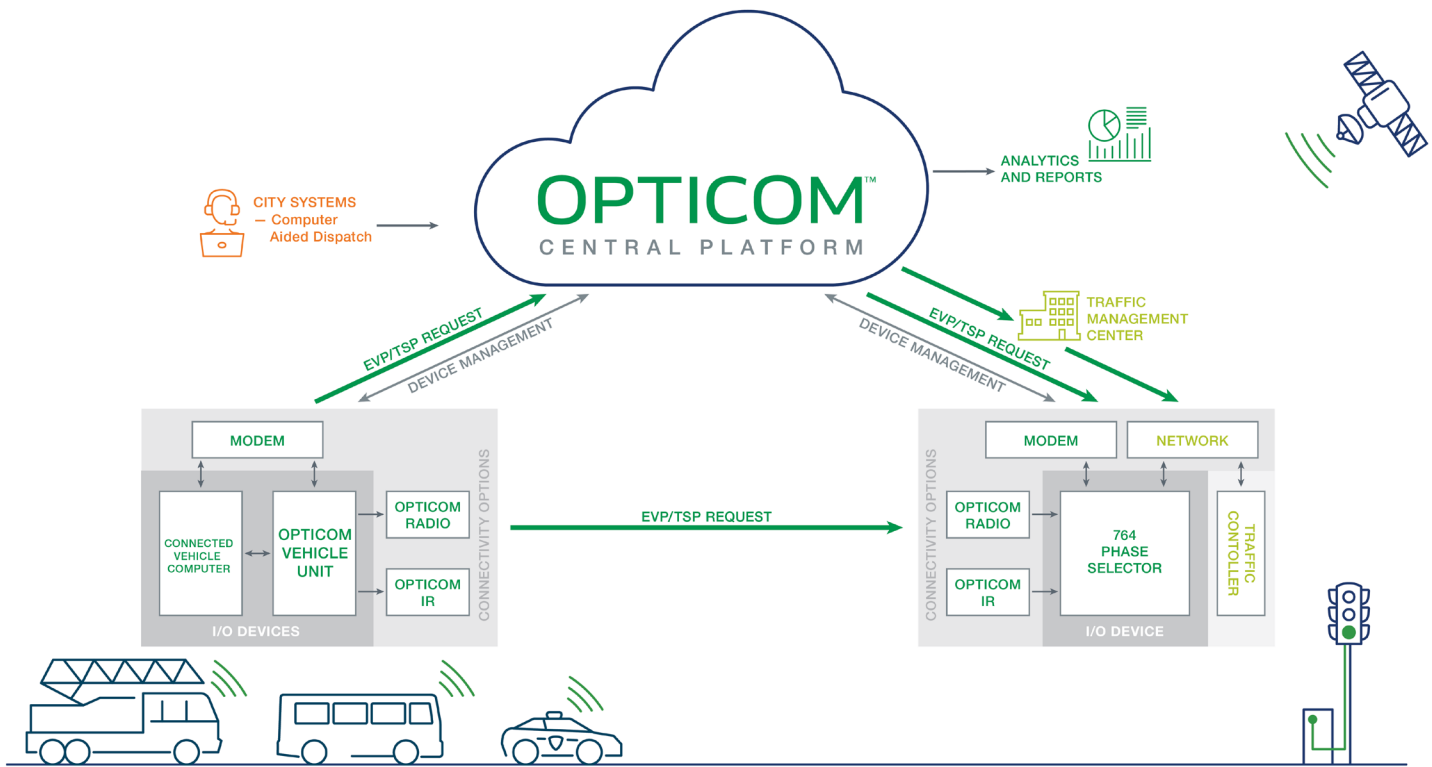

INTEGRATED

Integrated software solution leveraging city and vehicle infrastructure

SMART CITY

Fully-integrated solution leveraging IoT and third-party data sources and cloud technology

HOW IT WORKS

MAXIMIZE YOUR RESOURCES

PICK THE PARTS YOU NEED OR GET OPTICOM AS A SERVICE
